

# Viewing Radiology Images on Ubuntu

*Tested using Ubuntu 10.10 Maverick Meerkat*

## Install Aeskulap Viewer

- 1.) Click Applications → Ubuntu Software Center
- 2.) In the top right enter Aeskulap in the search box.
- 3.) Click on the Aeskulap Viewer and select install.

## Open a dicom disc

- 1.) Insert disc
  - 2.) Open Aeskulap from the Applications → Graphics menu
  - 3.) Click on file → open DicomDir
  - 4.) Browse to the CD Drive and select the DICOMDIR file and click open.
- The images will now load from the disc and you will be able to manipulate them in the application.
